Experience:

DESIGNATION Labs
Chicago, IL | May - Sept 2015
User Interface Designer

• Worked with Chicago-based companies including;
DESIGNATION Labs: Provided mobile app screens and marketing page designs for their Pulseband project, a wearable heart monitoring device that is paired with mobile app.
Smart Yeti Studios: Exceeded website redesign request by providing an organic flowing responsive design for desktop, tablet, and mobile.
Selfie: Provided 1x, 2x, and 3x assets, UI kit and key screen mockups for iOS app redesign to market to 13-17 year olds.

Burns Photography
New Lenox, IL | June 2008 - Oct 2014
Senior Artist & Photographer

• Designed various materials including customer-specific products, studio advertisements and marketing materials, and various account themed products.
• Mentor junior artists teaching workflows and fulfill portrait orders by retouching and image enhancement.
• Photograph various HS events, sports, performances, dances for yearbook.

Jackson Ford
Decatur, IL | Jan 2010 - May 2011
Photographer & Graphic Designer

• Design various materials including; full page themed newspaper ads for vehicle listings, photo manipulated posters of dealer's actual vehicles for social media, website splash page buttons and assorted ebay store banners and photo overlays.
• Photograph vehicle inventory by providing high quality detailed photos of vehicle condition for online listings
